North Africa is a diverse, mysterious and very unique region of the African continent.

We have a Foursquare presence in one of these 5 nations and are reaching into at least one more in the coming year. These nations are often moderately or highly hostile to traditional church planting and missions, and therefore we need a different approach to these “creative access nations.” We come as teachers, businesspeople, language learners, and servants to reach people’s hearts and build relationships and bridges.

Opportunities to serve:

We are currently looking for both short-term and long-term workers in this exploding region of the world. Opportunities to serve include: teaching English (formal and informal), church planting, BAM (Business As Mission), teaching and training in local churches, youth ministry and training youth leaders, and serving marginalized people groups.
